Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the “Will a human case of <disease> in <geography> be reported before <date>?” Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi), a registered DCM, hereby notifies the Commission that it is self-certifying the “Will a human case of <disease> in <geography> be reported before <date>?” contract (Contract). The Contract will initially be listed after close-of-business on **July 17, 2025**; it is listed as the day after because of limitations of the Commission's online submission portal. The Exchange intends to list the contract on a **custom** basis. The Contract’s terms and conditions (Appendix A) includes the following strike conditions:

- **<date>**
- **<disease>**
- **<geography>**

Along with this letter, Kalshi submits the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract’s Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Xavier Sottile
Head of Markets
KalshiEX LLC

KalshiEX LLC

Official Product Name: “Will a human case of <disease> in <geography> be reported before <date>?”

Rulebook: HUMANDISEASECASE

Summary: Human disease case reporting before deadline

Kalshi Contract Category: Health/Science

Kalshi Internal Category: Health

July 16, 2025

CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles (discussed in Appendix D), and the Commission's regulations thereunder.

I. Introduction

The “Will a human case of <disease> in <geography> be reported before <date>?” Contract is a contract relating to Health.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other event contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. As outlined in Rule 5.12 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.6 of the Rulebook. Fees, if they are charged, are charged in such amounts as may be revised from time to time to be reflected on the Exchange’s Website. A new Source Agency can be added via a Part 40 amendment. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of

the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. The Expiration Value and Market Outcome are determined at or after Market Close. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that an event occurs that is encompassed within the Payout Criterion, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

**CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE
ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE
40.2, 17 C.F.R. § 40.2**

Based on the above analysis, the Exchange certifies that:

- The Contract complies with the Act and Commission regulations thereunder.
- This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

Should you have any questions concerning the above, please contact the exchange at ProductFilings@kalshi.com.

Appendix A - Contract Terms and Conditions

Appendix B (Confidential) - Further Considerations

Appendix C (Confidential) - Source Agency

Appendix D (Confidential) - Compliance with Core Principles

APPENDIX A – CONTRACT TERMS AND CONDITIONS

Official Product Name: “Will a human case of <disease> in <geography> be reported before <date>?”

Rulebook: HUMANDISEASECASE

HUMAN DISEASE CASE

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is the official reporting of at least one confirmed human case of <disease> by a Source Agency after Issuance and before <date>. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Source Agency: The Source Agencies are, in hierarchical order, the World Health Organization (WHO), the U.S. Centers for Disease Control and Prevention (CDC), the European Centre for Disease Prevention and Control (ECDC), the Public Health Agency of Canada (PHAC), Health and Social Care (UK), the Australian Department of Health, the Chinese Center for Disease Control and Prevention, the Africa Centres for Disease Control and Prevention, the Pan American Health Organization (PAHO), the relevant national, international, or subnational health agencies for <geography>, US state health agencies, Reuters, Associated Press, Bloomberg News, The New York Times, The Washington Post, The Wall Street Journal, CNN, and BBC.

Type: The type of Contract is an Event Contract.

Issuance: After the initial Contract, Contract iterations will be listed on an as-needed basis at the discretion of the Exchange and corresponding to the risk management needs of Members.

<disease>: <disease> refers to a specific infectious disease, pathogen, or health condition as specified by the Exchange. This includes any variant, strain, or subtype of the specified disease, unless otherwise specified by the Exchange. If multiple names exist for the same condition, any official designation used by health authorities will qualify.

<date>: <date> refers to a calendar date specified by the Exchange. The Exchange may list iterations of the Contract corresponding to variations of <date>.

<geography>: <geography> refers to a specific geographic area, such as supra-national, nationwide, a specific state, congressional district, region, county, city, or other subdivision specified by the exchange. <geography> may encompass numerous territories (e.g. “the world” or “all cities in South Africa”). <geography> can also take the value “none.”

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that at least one confirmed human case of <disease> in <geography> has been officially reported by a Source Agency after Issuance and before <date>.

A confirmed case is defined as:

- A case that meets the clinical, laboratory, and/or epidemiological criteria established by the reporting health authority
- A case explicitly described as "confirmed," "laboratory-confirmed," or "verified" by the Source Agency
- A case included in official case counts, surveillance reports, or epidemiological bulletins
- A case reported through official channels including press releases, health alerts, surveillance bulletins, or verified public statements by Source Agency officials

The following constitute qualifying reports:

- Initial case reports from any Source Agency
- Confirmation of previously suspected cases
- Cases identified through routine surveillance or outbreak investigations
- Imported cases diagnosed and reported within any jurisdiction covered by Source Agencies
- Cases reported in official health agency databases, dashboards, or notification systems

The following do NOT constitute qualifying reports:

- Suspected, probable, or presumptive cases pending laboratory confirmation
- Cases reported only in academic papers, preprint servers, or conference presentations without official health agency confirmation
- Cases mentioned only in media speculation or unofficial sources
- Animal cases or cases in non-human species

The date of the case will be determined by the date of confirmation, rather than the date of suspected onset. If a case is confirmed after <date> but authorities state the infection occurred before <date>, this does NOT qualify. The first initial confirmation will be used to determine the Contract, even if future revisions or changes occur.

Minimum Tick: The Minimum Tick size for the Contract shall be \$0.01.

Position Accountability Level: The Position Accountability Level for the Contract shall be \$25,000 per strike, per Member.

Last Trading Date: The Last Trading Date of the Contract will be the day prior to <date>. The Last Trading Time will be 11:59 PM ET.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

Expiration Date: The latest Expiration Date of the Contract shall be one week after <date>. If an event described in the Payout Criterion occurs, expiration will be moved to an earlier date and time in accordance with Rule 7.2.

Expiration Time: The Expiration time of the Contract shall be 10:00 AM ET.

Settlement Value: The Settlement Value for this Contract is \$1.00.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(d) of the Rulebook. If an Expiration Value cannot be determined on the Expiration Date, Kalshi has the right to determine payouts pursuant to Rule 6.3(b) in the Rulebook.
