CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles (discussed in Appendix D), and the Commission's regulations thereunder.

I. Introduction

The “Will the <points> recorded in <time period> of <basketball game> be <above/below/exactly/at least/between> <count> points?” Contract is a contract relating to Sports.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices C, D, and E.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other event contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. As outlined in Rule 5.16 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.13 of the Rulebook. Fees, if they are charged, are charged in such amounts as may be revised from time to time to be reflected on the Exchange’s Website. A new

Source Agency can be added via a Part 40 amendment. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time. Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. The Expiration Value and Market Outcome are determined at or after Market Close. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that an event occurs that is encompassed within the Payout Criterion, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

**CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE
ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE
40.2, 17 C.F.R. § 40.2**

Based on the above analysis, the Exchange certifies that:

- ☐ The Contract complies with the Act and Commission regulations thereunder.
- ☐ This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

BASKETBALLTOTALS

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is the number of points recorded during <time period> of <basketball game>. For team-specific markets, only statistics accumulated by the specified team count. For game totals, statistics from both teams are combined. Type: The type of Contract is an Event Contract.

Issuance: After the initial Contract, Contract iterations will be listed on an as-needed basis at the discretion of the Exchange and corresponding to the risk management needs of Members.

<points>: <points> refers to an official scoring unit awarded in a <basketball game>, as recognized by the governing body of the competition (e.g., NBA, NCAA, FIBA). Unless otherwise specified, <points> shall be understood to refer to the total combined points - that is, the sum of the points scored by both teams in <time period>. <points> may also refer, where specified, to:

Overtime points are included unless explicitly excluded. Only official scoring recorded by the Source Agency will be considered valid for settlement.

<time period>: <time period> refers to a segment of <basketball game> or the tournament at which <basketball game> is played specified by the Exchange. <time period> may take, but is not limited to the following forms:

- Entire game, which refers to the time period encapsulating regulation time and overtime
- Entire game excluding overtime (i.e. regulation time only game), which to regulation time with no overtime
- Overtime only

- A quarter, half, or subsegment of the game specified in the singular or in the plural when used with AND/OR operators (e.g. Q1, or Q1 and Q2)
- Any quarter or half across the entire game or a subset of the game, which may be satisfied if at least one of the aforementioned segments of the game meets the stated Payout Criterion
- Each quarter or half across the entire game, or each subset of the game, which may be satisfied if ALL of the aforementioned segments of the game meets the stated Payout Criterion
- A given time period denoted in hours and/or minutes and/or seconds of pure matchplay, or constrained by a given time in a stated timezone (e.g. prior to 7PM ET)

<time period> may also take the forms of any segment in a set range, refer in the singular or the multiple, by distinguishing characteristics (e.g. any basketball game involving a team from New York), “Any” or “None”. Where not specified otherwise, <time period> shall be understood to refer to the sum of regulation time and overtime.

<basketball game>: <basketball game> refers to an officially scheduled contest between two teams as recognized by the National Basketball Association (NBA) or the governing body of the relevant competition (e.g., FIBA, NCAA) specified by the Exchange. <basketball game> may be defined by the names of the teams involved, by the date of the game, by the stage of the season (e.g., regular season, playoffs, finals), as any basketball game within a set of basketball games (including within or representative of the whole season or tournament), or by distinguishing characteristics. <basketball game> may also take the forms “Any” or “None”.

<above/below/exactly/at least/between>: <above/below/exactly/at least/between> refers to comparison operators. "Above" means greater than ($>$), "below" means less than ($<$), "exactly" means equal to ($=$), "at least" means greater than or equal to (\geq), and "between" means within an inclusive range (\geq lower bound and \leq upper bound).

<count>: <count> refers to a numerical threshold specified by the Exchange. May include whole numbers or half-numbers (e.g., 47.5) or 0.

<date>: <date> refers to a calendar date specified by the Exchange. The Exchange may list iterations of the Contract corresponding to variations of <date>.

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that the number of <points> recorded in <time period> of <basketball game> is <above/below/exactly/at least/between> <count>.

Additional clarification(s):

- Statistics are considered final at the conclusion of <basketball game>. Corrections made afterwards will not affect the value of the Contract.

- If <basketball game> is cancelled prior to scheduled commencement, all markets on <basketball game> will resolve to the last fair price as determined by the Exchange in its sole discretion.
- If <basketball game> is cancelled or abandoned after the start of the game and does not re-commence within 24 hours, all markets except for final game score (which will resolve if the game reaches 48 minutes of gameplay for an NBA game, or 40 minutes for a WNBA or collegiate game) and markets on totals already reached (which will resolve on the basis of available strikes), will resolve to the last fair price as determined by the Exchange in its sole discretion.
- If <basketball game> is delayed for two weeks or less, all markets on <basketball game> will remain open.
- If <basketball game> is delayed for more than two weeks, all markets on <basketball game> will resolve to the last fair price as determined by the Exchange in its sole discretion.
- If a given team or player necessary for the determination of <points> withdraws prior to the commencement of <basketball game>, the markets on <points> relating to that team or player performance in <basketball game> will resolve to the last fair price as determined by the Exchange in its sole discretion.
- If a given team or player necessary for the determination of points retires or is injured during <basketball game>, the markets on the <points> contingent on that team or player will settle based on end-of-game statistics if they have played for at least one (1) second. Note that this condition will not be triggered if <points> refers to a team total and/or a total related to players linked with “OR” logic, and a player within a named team retires or is injured, it must be the whole team.
- If a given team or player upon which <points> is contingent is disqualified following <basketball game>, the markets on <points> contingent on that team or player will settle based on the end-of-game statistics if they have played for at least one (1) second.
- If data for the results of <basketball game> is delayed or unavailable, the Exchange may wait 24-hours for it to become available. If, after 24 hours, the data remains unavailable, all markets on <basketball game> that cannot be settled due to missing data will resolve to the last fair price as determined by the Exchange in its sole discretion.
- If there is a change to the format of <basketball game> that materially affects markets on <basketball game>, the affected markets may be resolved to the last fair price as determined by the Exchange in its sole discretion.
- If a season is truncated mid-season, all markets deemed to be affected (e.g. total points over a season) by the Exchange may resolve to the last fair price as determined by the Exchange in its sole discretion.
- If there is a dead-heat or multiple winners, the tiebreak or title-sharing provisions imposed by the League will govern resolution, with otherwise mutually-exclusive

markets involving co-winners resolving “Yes” for each <entity> or <player> at a Payout of $\$1/(\text{number of tied winners})$ rounded down, and “No” at $(\$1 - \text{“Yes” Payout})$.
