Re: KalshiEX LLC – CFTC Regulation 40.2(a) Notification Regarding the Initial Listing of the “Will <project> launch a token by <date>?” Contract

Dear Sir or Madam,

Pursuant to Section 5c(c) of the Commodity Exchange Act and Section 40.2(a) of the regulations of the Commodity Futures Trading Commission, KalshiEX LLC (Kalshi), a registered DCM, hereby notifies the Commission that it is self-certifying the “Will <project> launch a token by <date>?” contract (Contract). The Contract will initially be listed after close-of-business on **August 26, 2025**; it is listed as the day after because of limitations of the Commission's online submission portal. The Exchange intends to list the contract on a **custom** basis. The Contract’s terms and conditions (Appendix A) includes the following strike conditions:

- <date>
- <project>

Along with this letter, Kalshi submits the following documents:

- A concise explanation and analysis of the Contract;
- Certification;
- Appendix A with the Contract’s Terms and Conditions;
- Confidential Appendices with further information; and
- A request for FOIA confidential treatment.

If you have any questions, please do not hesitate to contact me.

Sincerely,

Xavier Sottile
Head of Markets

KalshiEX LLC

Official Product Name: “Will <project> launch a token by <date>?”

Rulebook: TOKENLAUNCH

Summary: Whether <project> launches a token by <date>

Kalshi Contract Category: Science/Technology

Kalshi Internal Category: Crypto

August 26, 2025

CONCISE EXPLANATION AND ANALYSIS OF THE PRODUCT AND ITS COMPLIANCE WITH APPLICABLE PROVISIONS OF THE ACT, INCLUDING CORE PRINCIPLES AND THE COMMISSION'S REGULATIONS THEREUNDER

Pursuant to Commission Rule 40.2(a)(3)(v), the following is a concise explanation and analysis of the product and its compliance with the Act, including the relevant Core Principles (discussed in Appendix D), and the Commission's regulations thereunder.

I. Introduction

The “Will <project> launch a token by <date>?” Contract is a contract relating to Crypto.

Further information about the Contract, including an analysis of its risk mitigation and price basing utility, as well as additional considerations related to the Contract, is included in Confidential Appendices B, C, and D.

Pursuant to Section 5c(c) of the Act and CFTC Regulations 40.2(a), the Exchange hereby certifies that the listing of the Contract complies with the Act and Commission regulations under the Act.

General Contract Terms and Conditions: The Contract operates similar to other event contracts that the Exchange lists for trading. The minimum price fluctuation is \$0.01 (one cent). Price bands will apply so that Contracts may only be listed at values of at least \$0.01 and at most \$0.99. Further, the Contract is sized with a one-dollar notional value and has a minimum price fluctuation of \$0.01 to enable Members to match the size of the contracts purchased to their economic risks. As outlined in Rule 5.16 of the Rulebook, trading shall be available at all times outside of any maintenance windows, which will be announced in advance by the Exchange. Members will be charged fees in accordance with Rule 3.13 of the Rulebook. Fees, if they are charged, are charged in such amounts as may be revised from time to time to be reflected on the Exchange’s Website. A new Source Agency can be added via a Part 40 amendment. All instructions on how to access the Underlying are non-binding and are provided for convenience only and are not part of the binding Terms and Conditions of the Contract. They may be clarified at any time.

Furthermore, the Contract's payout structure is characterized by the payment of an absolute amount to the holder of one side of the option and no payment to the counterparty. During the time that trading on the Contract is open, Members are able to adjust their positions and trade freely. The Expiration Value and Market Outcome are determined at or after Market Close. The market is then settled by the Exchange, and the long position holders and short position holders are paid according to the Market Outcome. In this case, "long position holders" refers to Members who purchased the "Yes" side of the Contract and "short position holders" refers to Members who purchased the "No" side of the Contract. If the Market Outcome is "Yes," meaning that an event occurs that is encompassed within the Payout Criterion, then the long position holders are paid an absolute amount proportional to the size of their position and the short position holders receive no payment. If the Market Outcome is "No," then the short position holders are paid an absolute amount proportional to the size of their position and the long position holders receive no payment. Specification of the circumstances that would trigger a Market Outcome of "Yes" are included below in the section titled "Payout Criterion" in Appendix A.

**CERTIFICATIONS PURSUANT TO SECTION 5c OF THE COMMODITY EXCHANGE
ACT, 7 U.S.C. § 7A-2 AND COMMODITY FUTURES TRADING COMMISSION RULE
40.2, 17 C.F.R. § 40.2**

Based on the above analysis, the Exchange certifies that:

- ☐ The Contract complies with the Act and Commission regulations thereunder.
- ☐ This submission (other than those appendices for which confidential treatment has been requested) has been concurrently posted on the Exchange's website at <https://kalshi.com/regulatory/filings>.

Should you have any questions concerning the above, please contact the exchange at ProductFilings@kalshi.com.

Appendix C (Confidential) - Source Agency

Appendix D (Confidential) - Compliance with Core Principles

APPENDIX A – CONTRACT TERMS AND CONDITIONS

Official Product Name: “Will <project> launch a token by <date>?”

Rulebook: TOKENLAUNCH

TOKENLAUNCH

Scope: These rules shall apply to this contract.

Underlying: The Underlying for this Contract is the launch of a token by <project> after Issuance and before <date>. Revisions to the Underlying made after Expiration will not be accounted for in determining the Expiration Value.

Source Agency: The Source Agencies are <project>, CoinDesk, CoinTelegraph, The Block, Decrypt, DeFi Llama, CoinMarketCap, CoinGecko, Etherscan, Polygonscan, Arbiscan, Base Explorer, Solscan, Binance Chain Explorer, official blockchain explorers for the relevant networks, major cryptocurrency exchanges including Binance, Coinbase, Kraken, and OKX, The New York Times, the Associated Press, Bloomberg News, Reuters, Axios, The Information, and The Wall Street Journal.

Type: The type of Contract is an Event Contract.

Issuance: After the initial Contract, Contract iterations will be listed on an as-needed basis at the discretion of the Exchange and corresponding to the risk management needs of Members.

<project>: <project> refers to a blockchain project, protocol, decentralized application, or cryptocurrency organization specified by the Exchange. This includes the project's official entity, foundation, labs organization, development team, or DAO acting on behalf of the project.

<date>: <date> refers to a calendar date specified by the Exchange. The Exchange may list iterations of the Contract corresponding to variations of <date>.

Payout Criterion: The Payout Criterion for the Contract encompasses the Expiration Values that <project> has launched a token after Issuance and before <date>.

For the purposes of this Contract, a "token launch" (also known as Token Generation Event or TGE) is defined as when ALL of the following criteria are met:

- A fungible token has been deployed on a blockchain network
- The token has been officially announced by <project> as their token
- The token is transferable between wallet addresses (not locked or non-transferable)
- The token has real economic value (not a testnet or valueless token)
- The token has a liquidity pool with real economic value
- The token has been distributed through at least one of: public sale, private sale, airdrop, liquidity provision, or exchange listing

Any of the following SHALL constitute a token launch:

- Initial Coin Offering (ICO) where tokens are sold to the public
- Token Generation Event (TGE) with transferability
- Airdrop of transferable tokens with economic value
- Fair launch where tokens become publicly tradeable
- Migration from testnet tokens to mainnet tokens with value
- Token swap from placeholder tokens (e.g., ERC-20) to native tokens
- Launch of governance tokens that can be transferred and traded
- Utility tokens that become transferable and have market value

The following SHALL NOT constitute a token launch:

- Announcement of future token launch without actual deployment
- Non-transferable tokens, points, or credits
- Testnet tokens with no real value
- Tokens that are fully locked and cannot be transferred before <date>
- NFTs (non-fungible tokens)
- Soulbound tokens that cannot be transferred
- Internal tokens used only within a closed ecosystem
- Wrapped or derivative tokens of existing assets
- Token contracts deployed but not activated or made public
- Points or loyalty rewards that may convert to tokens after <date>

Examples that WOULD resolve to Yes:

- <project> conducts an ICO and tokens become tradeable on exchanges
- <project> airdrops tokens to users that can immediately be transferred and sold
- <project> launches governance tokens that holders can transfer and trade
- <project> migrates from placeholder tokens to native transferable tokens
- <project> conducts a fair launch where tokens are minted and immediately tradeable

Examples that WOULD NOT resolve to Yes:

- <project> announces "token coming soon" but doesn't launch before <date>
- <project> distributes points that will convert to tokens after <date>
- <project> launches NFTs instead of fungible tokens
- <project> creates tokens that are locked for all holders until after <date>
- <project> deploys a token contract but doesn't distribute or activate it

Minimum Tick: The Minimum Tick size for the Contract shall be \$0.01.

Position Accountability Level: The Position Accountability Level for the Contract shall be \$25,000 per strike, per Member.

Last Trading Date: The Last Trading Date of the Contract will be the day prior to <date>. The Last Trading Time will be 11:59 PM ET.

Settlement Date: The Settlement Date of the Contract shall be no later than the day after the Expiration Date, unless the Market Outcome is under review pursuant to Rule 7.1.

Expiration Date: The latest Expiration Date of the Contract shall be one week after <date>. If an event described in the Payout Criterion occurs, expiration will be moved to an earlier date and time in accordance with Rule 7.2.

Expiration time: The Expiration time of the Contract shall be 10:00 AM ET.

Settlement Value: The Settlement Value for this Contract is \$1.00.

Expiration Value: The Expiration Value is the value of the Underlying as documented by the Source Agency on the Expiration Date at the Expiration time.

Contingencies: Before Settlement, Kalshi may, at its sole discretion, initiate the Market Outcome Review Process pursuant to Rule 6.3(d) of the Rulebook. If an Expiration Value cannot be determined on the Expiration Date, Kalshi has the right to determine payouts pursuant to Rule 6.3(b) in the Rulebook.
